OUR MISSION

"We want you to be safe, reliable and productive. We are bringing together the operators, reliability technicians, maintenance and process engineers, supervisors, EPC's and vendors to learn from each others' expertise and improve productivity in handling Sulfur, Amine, Sour water and Tailgas."

Meet and share information on the latest products and services, technologies and regulations that affect the design, operation, and reliability of the Sulfur Plant and related units. The conference and exhibition provide participants the opportunity to come together as a professional community to present new technologies, share best practices, learn from others' near misses and mistakes, and network with other national and international Sulfur professionals involved in every aspect of the Sulfur process.

WE BRING THE OWNERS TO YOU

Exhibitors will have multiple occasions to interact with participants at the morning and afternoon break, lunch and evening receptions which are scheduled in the exhibition hall.

Face-to-Face Meetings:

Enhanced learning and networking for conference delegates

Our conferences deliver much more than just great content.

We recognize the importance of sharing knowledge with peers and building useful contacts, and our scheduled networking sessions let you do just that.

We make it our business to ensure you make the most of your time by adding meetings with the people with whom you share common business goals.

Here's how it works

Our team works with you to understand what you're looking to achieve at the event and who in particular you would like to meet with.

15 minute meetings are scheduled for you based on a pre-qualified list of people that you have selected in advance.

Delegates can network productively without being sold services you are not interested in.

The Details

You let us know early on which company you would like to meet with and preferably the person's name, even better if you can supply contact details. We'll get a profile from you of what you are offering. If they are not registered for the conference, we invite them and encourage them to meet with you.

- ◆ Meetings will be in the exhibition hall at the round tables.
- ◆ If the morning breaks starts at 9:45, the first meeting will be 5 minutes after that at 9:50. It will go for 15 minutes.
- ◆ There will be a 5 minute transition, then the second meeting starts at 10:10.
- ◆ If there is a lot of interest in these meetings, we will schedule them for the second day too.

There is no additional fee to refiners or suppliers to participate.
